

1960 Josef Poeschl started

his business with 2 " Bechler" single/ mono Spindle lathes in Munich / Germany.

...almost 50 years later

we produce on about 50 automatic lathes approx. 20 million turning workpieces (diameter Ø 0,5mm - Ø 26mm).

With our state-of-the-art equipment we are able to produce parts, that fulfill the highest technical requirements of our customers worldwide. We machine a huge variety of different front sides, back sides, at right angle, and transverse sides.

Please send your inquiry to our fax +49-(0)89-894454-44, or you can mail it to SALES@poeschl-gmbh.de
